April is school library month and this year's theme is "Because School Libraries Empower Students." Students learn, explore, and go on adventures when they read. We are very proud of our library at St. Paul's and what we can offer to our students. The students can now find books that they need with a click of the "mouse". Several of our classes visit the library once a week as part of their regular schedule. The students can view their names and see what books they need to return. Teachers have library books in their classrooms that are permanently checked out to them. A complete inventory list is available to them at any time. New technology and "progress" is good, but there is still a love of going to the library, sitting down to hold a book, and turning the pages of a good book. Ask your child, "Did you go to the library today?"

St. Paul's Summer Program will run from Tuesday, May 30, through Friday, July 28. We now have enough students enrolled to make the program available, and it is not too late to still enroll. Enrollment forms may be picked up at the church or school offices.
